# Global Day of Parents 2026

Each year, parents who have experienced (and are experiencing) the 'child protection' system gather with their allies.

We invite parents, alongside old and new allies, to our annual celebration of parents, families and children.

## For Queensland, the timing in 2026 is important:

- » The Child Safety Commission of Inquiry Report has now been finalised.
- » The Inquiry's final report was handed to the Queensland Government on 22 May 2026.
- » As the findings and recommendations are considered, we expect that parents' voices will be heard and considered. Parents are key stakeholders in the 'child protection' system.
